Leap into Life!

A resource for delivery of Physical Literacy at Foundation Stage and Key Stage 1, Leap into Life is a dynamic movement programme designed to inspire children to move with fluency, accuracy and confidence.

Leap into Life has been written for Teachers and Nursery Practitioners by teachers, consultants, Early Years and Physical Education advisers and physiotherapists. Leap into Life is a 4-year planned movement programme. It includes over 4000 progressive teaching ideas in 4 books and in 4 themes.

"I am delighted to see a physical literacy programme aimed solely at ensuring children get the very best start to their physical development and avoid many of the health problems that inactive and sedentary lifestyles can cause in later life. Too many children are failing to acquire the movement skills in early life which allow them to enjoy a wide range of the games and physical activities that should be part of a healthy childhood. Leap into Life is a physical literacy resource designed to address many of these issues." **Anne Whitely**, former Director of Children and Young People's Services, Devon County Council.

"Leap into Life is an exciting programme. The lessons are pacy, and gave me confidence" **Primary Teacher**; "It challenged my thinking about physical education" **Primary Teacher**; "The traditional approach of Games, Dance and Gymnastics sometimes puts a ceiling on pupils learning." **Headteacher**; "The material helps children to think about what they are doing and how they do it" **Early Years Consultant**.

Take 10 Fit to Succeed

A resource for integrating Daily Physical Activity into the primary school day.

TAKE 10 is a vital resource for schools looking to generate whole school improvement by engaging children in Daily Physical Activity. The TAKE 10 pack has three DVDs, three Activity Books and a Teachers' Guide. The boxed set provides a host of carefully selected 10-minute activity ideas, arranged in Key Stages, in six activity themes, to stimulate effective learning in the classroom and motivate children to become active young people. Box set of 4 books & 3 DVDs

Take 10 Every Move Counts

The follow up to Take 10: Fit to Succeed, this resource for primary schools provides a range of movement ideas to enhance the delivery of Daily Physical Activity (DPA). Available as a single user disc or online licence.

Take 10 every move counts can be used as a standalone resource but also builds on the success of, and integrates with, **Take 10 Fit to Succeed**. The 60 activities are grouped in 3 main sections: **Basic Moves**, **Revive** and **Relax**. All the activities are designed to be delivered in the classroom in short time slots. They are not intended to replace the existing DPA timetable but to enrich it and provide greater flexibility for teachers.

See a dance routine and introductory video at www.take10.org.uk

Active Playtimes

This pack has been put together for those adults who supervise or teach primary school children. Its purpose is to remind them of old games and introduce them to new ones so that the children in their charge may benefit from positive, active playtimes. It comprises a 56 page book featuring illustrated instructions for 50 games, examples of playground markings, advice on large and small equipment and sources of useful information plus a wallet of 25 laminated full colour games cards for use in the playground.

£10.00 or FREE with Leap into Life!
